

**A RESOLUTION TO APPROVE A MODIFICATION FOR THE
ILLINOIS ENVIRONMENTAL PROTECTION AGENCY OPERATING PERMIT FOR THE
ROLLING MEADOWS TRANSFER STATION**

NOW, THEREFORE, BE IT RESOLVED by the Mayor and the City Council of the City of Rolling Meadows, Illinois, that the City of Rolling Meadows hereby gives approval to the proposed modification to the IEPA operations permit for the Rolling Meadows Waste Transfer Station located at 3851 Berdnick Street, as currently operated by Advanced Disposal Services, that provides for the following modification:

“At the end of each day of operation, all waste shall be removed from the tipping floor. The tipping floor shall be swept to remove all waste. Waste may be left at the site overnight, however, it shall be in a covered container or waste collection vehicle. No waste shall remain at the site when the site is not scheduled to be open the following day. Areas designated for recyclable materials shall be emptied at least weekly and shall be managed to prevent a violation of the Illinois Environmental Protection Act. *In the case of extreme weather conditions halting travel to or operation of a solid waste landfill, solid waste may be stored on the tipping floor beyond permitted operating hours. Containerized storage shall be used when possible and adequate lighting and personnel will be present to manage the extended temporary storage on the tipping floor of any waste that cannot be containerized. The transfer station shall maintain a written record of the dates, times, and reason that specified landfill was impacted. Notification shall be provided to the IEPA Regional Office the day of the occurrence and subsequent days thereafter.*”
