Dear Joint Purchasing Participant:

Subject: 2013-2014 Rock Salt, Bulk Contract Information

In completing the 2013 – 2014 Rock Salt season contract re-procurement, the State of Illinois did not encounter the types of supply-related issues experienced in previous seasons. We made every effort to secure Road Salt at the best available price for participants in our contract re-procurement, and gladly report that all locations across the State were able to have their supply needs met through the State's procurement efforts.

We again recommend that participating agencies and governmental entities examine their application rates and roadway priorities in order to minimize next season's maintenance program cost while also ensuring the safety of the public.

Enclosed is a copy of the requisition you submitted to us for the purchase of rock salt. The information from the requisition, including purchase commitment, can be used to submit your requirements to this year's contract vendor:

Your unit is **Contract Line No: 89** / Price per ton F.O.B. destination, is **\$ 54.74**
Emergency pickup of salt from vendor's warehouse is not made available in this contract.

The additional price per ton to have rock salt delivered in trucks equipped with coal/grain chute openings in the tailgate to permit controlled off-loading of rock salt onto conveyors is **\$40.00** per ton. Contact vendor for availability in your area and scheduling deliveries.

You are responsible for issuing your own purchase order document to the vendor. Orders may be placed with the vendor via telephone, with a written or fax confirmation to follow immediately. *You are strongly encouraged to order early and to store as much salt as possible in order to help prevent potential salt shortages this winter.* Also, you need to make every effort to place orders in full truckload lots (22-25 tons) or multiples of such.

Deliveries of rock salt containing any foreign material such as mud, rocks, grader teeth, wood, tarpaulins, etc., may be rejected at the delivery site. In the event that any foreign material is discovered in dumped deliveries, the salt and foreign matter may be reloaded onto the cartage hauler's truck by the local governmental unit and returned for credit, or the vendor shall immediately ship a specification compliant load of replacement salt, or issue a refund to the governmental unit consistent with the contract price.

In December 2013, the contract vendor shall have in place stockpile(s) located in or near Illinois covering the tonnage awarded for the northern regions of the State, and in January of 2014 the contract vendor shall have in place stockpile(s) in or near to Illinois covering the total tonnage awarded for all regions of the State. At our discretion, we will inspect the stockpiles to ensure that these stockpiles are in sufficient quantities, and that vendor commitments to the stockpiles are with the users of this contract.

Enhanced rock salt 2013 - 2014 season availability from Cargill Salt Division:

The Department of Central Management Services surveyed vendors for availability of an enhanced rock salt option in the invitation for bid, and received an offering from Cargill Salt Division. Locations interested in this enhanced salt option must call the vendor for product availability information and to facilitate potential ordering arrangements.

Their product is made available to any joint purchasing participant awarded in the Cargill Salt Division Contract as an up-charge per ton option and would be added to your order as a separate line item. Contact Jason Fenske Pone: 612-817-7357 for availability details.

The enhanced salt product features additional pre-treatment of approved road salt with a product providing enhanced melting performance, with reduced corrosion and clumping.

It is hoped that this information will be beneficial to you in the utilization of this contract. If you have any further questions concerning the rock salt contract, please feel free to contact me at (217) 782-8091.

Sincerely,

Wayne Ilsley, CBBP, Buyer
