Garage Sales

Garage sales do not require a permit but city ordinances do require the following:

- Signs must be freestanding and not affixed to fences, utility poles or placed in any driver's line of vision.
- You may place a freestanding sign on your private property.
- If signs are to be placed anywhere other than your own property including the public right-of-way, approval must be obtained from the property owner directly adjacent to, and who has maintenance responsibilities for, the public way upon which the sign is placed. Without such approval the property owner is authorized to remove the sign.
- A premises is limited to a maximum of three (3) garage sales within any 12-month period.
- Garage sales are not to exceed two (2) consecutive weekends in duration.
